

Research and Teacher Education

Date: Thursday 26th June 2014

10.00am – 4.00pm

Venue: University of Chester,
Faculty of Education and Children's
Services, Riverside Campus,
Castle Drive, Chester, CH1 1SL

This joint SIG event, organised by the Teacher Education & Development and Research Methodology in Education SIG, focuses on questions of methodology and research design in teacher education research. The programme opens with discussion of the prospects for research-informed professional practice across the UK. The day will include invited presentations and workshop activities, including the potential of digital video in professional preparation and educational research. The conference concludes with consideration of new directions in teacher education research, including RCTs.

Presentations include:

Research and Teacher Education. Presentation and discussion of arrangements across the UK for research in, on and for teacher education

Professor Linda Clarke (University of Ulster) and Dr Moira Hulme (University of Glasgow)

Researching the effects of video on teacher learning

Dr Simon Flandin (French Institute of Education/ENS Lyon)

Workshop demonstration of the use of digital video in professional education using neopass action platform (<http://neo.ens-lyon.fr/neo>)

The potential of RCTs in educational research

Presentation: Professor Paul Connolly (Queen's University Belfast). Discussant: Professor Vivienne Baumfield (University of Glasgow)

Price: BERA members £30.00, Non-BERA members £35.00
